

We understand your challenges when looking for a supportive training provider, because:

- During the course you may not have a sounding board to reflect on how well prepared you are
- Will there be someone to guide you on how to handle the impact of work or family priority disruptions?
- You last wrote an exam years ago and/or your lack of project subject knowledge – hang-ups are haunting you
- With low success rates for the practitioner exam in South Africa, you may be concerned about you not passing
- The consequences may be embarrassing e.g. it would be terrible to have to go back to work and tell others – they may just think you’re not good enough. We want you to be part of the successful statistics?
- The cost of paying for re-writing the exam would cripple your budget

Not all training providers specialise in caring for their Prince2 learners, like you deserve. Registering for a Stratsure Prince2 course presents you with a very different alternative. You will receive:

- Dedicated hand holding from pre-course preparation right through to achieving certification
- You can avoid the most common reasons that cause under-performance
- Your confidence levels will grow and most fear-factors will be removed
- Your personal commitment level towards better performance, will soar
- Your calmer confidence will enable you to perform better during your learning experience
- To top it up, you will receive a free second shot at the practitioner exam – if it becomes necessary
- You or your organisation’s investment in you will be rewarded and your performance will be recognised – you personally, will be building on your self-worth, ready to contribute at work
